That's less than the cost of a meal for two at an average restaurant.

Now imagine if you were to eat at the restaurant AT LEAST once a week to get some good tasting food in your mouth. At a minimum of \$75 for two per meal, you'd easily spend at least \$300.00 a month!

For a fraction of that price, with Metabolic Cooking recipes, you could have tasty 'restaurant grade' fat burning meals EVERYDAY on YOUR table!

Simply put, we want to put this powerful information into your hands today at an extremely affordable price. To be frank, we could charge five times that amount and it'd still be an incredible value, but I'm not going to do that-at least not today.

Who has time to cook gourmet meals that call for 2-3 hours of prep time in the kitchen? Who has time to research advanced culinary degree level cooking techniques? Who wants to waste time on a diet that is impossible to follow permanently? Who wants to follow recipes from authors who don't know the first thing about fat loss? The answer? NOBODY! This is the MAIN reason diets and nutrition plans are failing you. This is the reason why you end up putting the weight you lost back on and it's the reason you continue to "Yo-Yo" diet while feeling frustrated and helpless. And it's for these reasons that I had to find a solution for myself and for you.
